**MJA Property Services Ltd**

ThyssenKrupp Mannex UK Ltd, based in Surrey is part of the ThyssenKrupp Group. We have worked with MJA Property Services Ltd for over 12 years. During this time, they have carried out a number of office refurbishment and relocation projects, the latest contract awarded to them following a competitive tender process was to relocate to new offices in Woking town Centre.

The project included a complete refurbishment of the new office; including partitioning, lighting, electrical and air conditioning works, flooring, alarms and entry systems, together with bespoke carpentry work, furniture, signage and building certifications. The removal services were organised through MJA, working with our other providers to seamlessly ease us into our new location over two days.

The works were completed within the time frame agreed and budget set. The project manager was very professional, approachable and all works were completed to a very high standard and to our specification.

We would not hesitate to recommend MJA Property Services Ltd to other companies and will continue to use them for our maintenance requirements, until the next relocation!

Frank Jeschke  
Managing Director
